Top Skills: Project Management, Product Management, Team Leadership

Languages: English: *Full Professional* | Spanish: *Native or Bilingual*

Summary

I am a Project & Program Manager with 17+ years of experience in Web2 and 3+ years as a Product and Project Manager in the Blockchain space.

Skills:

- Project, Program, and Product Management
- Waterfall and Agile methodologies
- Team leadership, mentoring, and training
- Account management for clients and partners
- Internal and user-facing documentation and processes
- Community-oriented mindset

I have worked across industries including Blockchain, AI, Fintech, Software Development, Private Banking, Oil & Gas, Non-Profits, and Web Design.

I have been a core contributor to PieDAO and AuxoFi and a team member of AtlasAxis, supporting the MakerDAO-to-Sky.money migration.

I have advanced English proficiency and expertise in both waterfall (PMI/PMP) and Agile methodologies (Scrum/Kanban/Scrumban). I have also been involved in community-building initiatives, speaking at ETHLatam 2022 and hosting community events in Buenos Aires (2022) and Lisbon (2021).

I am proficient in tools such as Atlassian (Jira, JSM, Confluence, Trello), Notion, Google Suite, MS Office, Figma, Miro, Mirror, Etherscan, Medium, Discord, POAP Design, Galxe, Discourse, Tally, Snapshot, Dune Analytics, Signal, Telegram, Slack, and AI-powered tools.

I have basic knowledge of HTML, CSS, JavaScript, and Java, and I am currently studying to become a Full-Stack Programmer Analyst at ORT Technology Institute.

Experience

Rather Labs, Inc — Technical Project Manager

November 2024 - Present (5 months) — Remote

- Managed the inception-to-proposal phase of two blockchain projects: a **non-EVM-to-EVM lending protocol migration** and a **Funding Rates Farming protocol**.
- Supported the release of a **DEX based on NEAR-Intents infrastructure** and its UX redesign.
- Supported Web2 project teams, including a **fintech for solar system loans** and an **AI-powered video editing tool**.
- Coordinated cross-functional teams, ensuring collaboration between **developers, UX designers, and stakeholders**.
- Oversaw **timelines, budgets, and resources** to align projects with strategic goals.
- Proposed process updates to simplify operations and improve documentation.

ESAB — IT Project Manager

August 2024 - November 2024 (4 months) — Europe

- Led a network infrastructure refresh across EMEA corporate and production sites.
- Managed the full project lifecycle, from discovery and procurement to installation and configuration.
- Worked with IT experts, network engineers, financial controllers, and sourcing specialists.

Connaxis — Service Delivery Manager

August 2024 - November 2024 (4 months) — Argentina

- Scaled and optimized the RKD Group's digital asset production team from 1 to 22 professionals.
- Implemented recruitment, invoicing, training, and knowledge management workflows.
- Led team management and client relationships to ensure seamless execution.

MakerDAO — Atlas Axis Contributor

May 2024 - August 2024 (4 months) — Ethereum

- Supported Atlas Axis in preparing Next Gen Atlas for MakerDAO's Endgame state.
- Curated governance documentation and ensured data accuracy.

DAOcraft — Ecosystem Support Contributor

November 2023 - April 2024 (6 months) — Ethereum

- Created and optimized processes to foster DAOs across Web3.
- Worked on content creation, governance tracking, project management, and Discord moderation.

AuxoDAO — Product Manager

May 2023 - October 2023 (6 months) — Ethereum

- Led the protocol migration from PieDAO to AuxoDAO.
- Defined roadmaps for treasury farming, incentives (KARMA), and AuxoLend.
- Acted as Scrum Master, leading Agile ceremonies and backlog management.

PieDAO — Product Manager

July 2021 - May 2023 (1 year 11 months) — Ethereum

- Managed DAO's public agenda, governance, content, and social media.
- Coordinated work streams for rewards, treasury, and vendor management.
- Hosted monthly stakeholder presentations.
- Presented at **ETH Latam 2022** ([Video](#)).

JPMorgan Chase & Co. — Program & Project Manager

December 2018 - July 2021 (2 years 8 months) — Buenos Aires

- Led IT infrastructure upgrades across global data centers.
 - Managed funding, procurement, vendor relationships, and deployments.
 - Mentored analysts in Agile methodologies.
-

Education

- **ORT Argentina** — Programmer Analyst (Computer Science) | Aug 2024 - Aug 2026
- **Coderhouse** — Product Management | May 2024 - Jul 2024
- **Coderhouse** — Web Development & JavaScript | Nov 2023 - Ju 2024
- **Centro de e-Learning UTN FRBA** — Agile Project Management (PMI-ACP) | 2017
- **Centro de e-Learning UTN FRBA** — Project Management (PMP - Executive Program) | 2012
